This Policy covers your access to this Site. Our Site is not directed to and is not intended for access and use by persons under the age of 18. We do not intentionally collect or use Personal Data from users that we have reason to believe are under the age of 18. California Civil Code Section 22581 permits minors under the age of 18 years, or their parents or guardians, to request and obtain removal of their information.

To request removal of your personal information please contact us using the methods described in this Policy. Note that removal under the law does not ensure complete or comprehensive removal of your information.

2. PERSONAL DATA COLLECTED

The type of Personal Data (defined below) and Other Data (also defined below) we collect depends on how you interact with this Site. Generally, we gather Personal Data and Other Data as described below.

Personal data is information that identifies you or can be used to identify or contact you, e.g., your name, email address, address, usage data, phone numbers, and unique device identifiers (“Personal Data”). We may need to collect and process Personal Data in order to provide requested information, products or Services to you (including this Site) or because we are legally required to do so.

- Account Registration. We request Personal Data from you if this Site requires registration. The registration process requests that you provide your name, email address, address, phone number, company affiliation, if any, and other similar information. This information must be stored on this Site, and is accessible to anyone with whom you share your username and password. For this reason, please safeguard your username and password carefully and do not disclose it to any other person.
- Voluntary Disclosure. We may collect Personal Data voluntarily provided by you, including in emails to this Site, online forms, order and registration forms, surveys, promotion participation, phone calls and online chats with our customer service staff and through other means.

If you wish to make a payment through this Site, you may be directed to a webpage that is hosted by the Payment Service (or the Payment Service’s service providers) and not by us. Any Personal Data that you provide through a Payment Service page will be collected by Payment Service and not by us, and will be subject to Payment Service’s privacy policy, rather than this Policy. We have no control over, and are not responsible for, Payment Service’s use of information collected through the Payment Service page.
- Log data. We may collect log data, such as network and connection information (including Internet Service Provider (ISP) and Internet Protocol (IP) addresses), device and browser identifiers and information (including device, application, or browser type, version, plug-in type and version, operating system, user agent, language and time zone settings, and other technical information), advertising identifiers, cookie identifiers and information, and similar data.
- Usage information. We may collect usage metrics (including usage rates, occurrences of technical errors, diagnostic reports, settings preferences, backup information), content interactions (including searches, views, downloads, and prints), and user journey history (including clickstreams and page navigation, URLs, timestamps, content viewed or searched for, page response times, page interaction, and similar data).

- Other Means. We may collect information through various other means, including from selected third-party business partners that we may utilize to deliver certain content, products, or services or to enhance your experience.

We ask that you not send us, and you not disclose, any sensitive Personal Data (e.g., social security numbers, information related to racial or ethnic origin, political opinions, religion or other beliefs, health, biometrics or genetic characteristics, criminal background, or trade union membership) on or through this Site or otherwise to us.

3. USE AND DISCLOSURE OF PERSONAL DATA

Our primary goal in collecting, using, and sharing your information is to enhance and improve our Services. To that end, we will only use Personal Data for legitimate business purposes, including the following:

We will engage in these activities to manage our contractual relationship with you and/or to comply with a legal obligation.
- Other Communications. From time to time, we may use Personal Data about you to inform you of products, programs, services and promotions that we believe may be of interest to you. If you or your employer is one of our customers, we may also inform you of such products, programs, services and promotions using Personal Data about you that you or your employer provided to us. If you choose to enter the Promotions, we typically ask you for certain Personal Data when you enter and, if applicable, win a Promotion. You should carefully review the rules of each Promotion in which you participate, as they may contain additional important information about our use of Personal Data about you. To the extent that the terms and conditions of such rules concerning the treatment of your Personal Data conflict with this Policy, the terms and conditions of such rules shall control. We use this information to operate the Promotions.
- Other Business Purposes. We may also use Personal Data about you for other business purposes, such as data analysis (for example, to improve the efficiency of our Site), editorial and feedback purposes, providing customer support, customizing and improving the content and layout of this Site, completing business transactions (for example, to confirm content requested is received by users), development of marketing and promotion plans and materials, statistical analysis of user behavior (for example, to understand what parts of this

Site are of most interest to users), product development, market research, administering individual accounts, and meeting government regulatory requirements such as sales tax collection, audits, etc. We may also use Personal Data of journalist/media contacts for press release distribution or sharing other newsworthy developments related to our business activities. We engage in these activities to manage our contractual relationship with you, to comply with a legal obligation, and/or because we have a legitimate interest.

- Administrative Communications. We reserve the right to use Personal Data to send to you important information regarding this Site, products, services, your account status, changes to this Site's terms of use, this Policy, or any other policies, agreements or transactions relevant to your use of this Site, products and/or services. Because this information may be important to your use of this Site, products and/or services, you may not opt-out of receiving such communications. We will engage in this activity to manage our contractual relationship with you and/or to comply with a legal obligation.

- Affiliate Communications. We may transfer Personal Data among our affiliates to allow our affiliates to contact you regarding products, programs, services and promotions that they believe may be of interest to you, and such affiliates may otherwise use your Personal Data in accordance with this Policy. If you would prefer not to receive marketing communications from us or our affiliates, please see the "opt-out" section below. We will be the party responsible for jointly-used Personal Data.
- Strategic Partners and Co-Branded Sites. From time to time, we may enter into a special relationship with another company that is not owned by or affiliated with us to provide or promote joint products, services, applications, or features (together, "Jointly Offered Items"). These special relationships may include co-branded web sites ("co-branded pages"). Any information, including Personal Data that you provide in connection with one of these Jointly Offered Items, and/or on one of these co-branded pages will be shared with our third-party partners. You should check these third parties' web sites for information regarding their privacy practices. PLEASE NOTE THAT THIS POLICY DOES NOT ADDRESS THE PRIVACY OR INFORMATION PRACTICES OF ANY THIRD PARTIES. If you do not want Personal Data about you shared with such third parties, please do not provide Personal Data in connection with the Jointly Offered Items and/or co-branded pages.

4. COLLECTION AND USE OF OTHER DATA

Our service providers and we may also collect and use the following types of data, referred to in this Policy as “Other Data”:

- Monitoring Data. Our service providers and we may collect and/or track other information such as demographic information, domain names, computer type, browser types, screen resolution, and other statistical data involving the use of this Site (“Monitoring Data”). We use Monitoring Data to help us understand who uses this Site and to improve and market it, as well as our other websites and services. Unless combined with Personal Data, Monitoring Data does not personally identify you or any other user, and we may use it for any purpose.
- Aggregated Data. We may aggregate Personal Data in a manner such that the end-product does not personally identify you or any other user of this Site, for example, by using information to calculate the percentage of our users who have a particular telephone area code. Such aggregate information may also be used for any purpose.
- Cookies. To enhance the Internet experience on this Site, our service providers and we may use ‘cookies’ on this Site. Cookies are data that a web server transfers to an individual’s computer for recordkeeping and other purposes. We use cookies and other technologies to facilitate users’ ongoing access to and use of our Site. If you do not want information collected through the use of cookies, there is a simple procedure in most browsers that allows you to automatically decline cookies, or to be given the choice of declining or accepting the transfer of a particular cookie, or cookies from a particular web site, to your computer. If cookies are disabled, however, all features of this Site may not operate as intended. Information about disabling cookies can be found on your Internet browser provider’s web site. This Site may have a Cookie Policy that applies to its use of cookies and other similar tracking technologies. If it does, then the Cookie Policy will apply in addition to this Policy. We may use the following types of cookies:

- Strictly Necessary. These include cookies that are required to allow registered users to authenticate and perform account related functions, as well as to save the contents of virtual “carts” for e-commerce functionality.
- Analytics and Performance. Performance cookies collect information on how users interact with our Site, including what pages are visited most, as well as other analytical data. We use these details to improve how our Site functions and to understand how users interact with our Sites.
- Functionality. These cookies are used to store preferences set by users, such as account name and language.
- Security. We use these cookies to help identify and prevent potential security risks.
- Advertising. These cookies are used to display relevant advertising to users who use our Site, as well as to understand and report on the efficacy of ads served on our Site. They track details such as the number of unique visitors, the number of times particular ads have been displayed, and the number of clicks the ads have received. They are also used to build user profiles, including showing you ads based on products you’ve viewed or acts you have taken.
- Third-Party / Embedded Content. Our Site may utilize third-party applications and services to enhance the experience of use of our Site. As a result, cookies may be set by third parties, and used by them to track your online activity. We have no direct control over the information that is collected by these cookies.
- Tools. Our service providers and we may also use various common Internet tools such as ‘pixel tags,’ ‘action tags,’ ‘web beacons,’ ‘gif tags,’ ‘JavaScript’ or similar technologies (together, “Tools”) in connection with Site pages and email messages in certain formats to, among other things, track the actions of Site users and email recipients, to determine the success of marketing campaigns and to compile statistics about Site usage and response rates. Tools allow us to count users who have visited certain pages of this Site, and to help determine the effectiveness of promotional or advertising campaigns. When used in email messages in certain formats, Tools can tell the sender whether and when the email has been opened.

We uses cookies and Tools to understand how this Site is used and to customize and enhance the Internet experience of individual users. When you revisit this Site, we may recognize you by a Tool and customize your experience. For example, once you have completed the registration process, a cookie and/or Tool will be used to avoid having you register again. We believe cookies and Tools add value to the user experience.

- HubSpot Analytics, Google Analytics. We may use Google Analytics, HubSpot Analytics and other similar programs which each use cookies and other similar technologies, to collect and analyze information about Site use and to report on activities and trends. These programs may also collect information regarding the use of other websites, apps and online resources.

- Verification. We may use third-party services to verify that you are a human user. Any information collected as part of such verification is subject to the privacy policy of the third-party service provider.
- IP Addresses. When you visit and interact with this Site, we and our third-party service providers may collect Internet Protocol (IP) addresses. Your IP address is a number that is automatically assigned to the computer that you are using by your Internet Service Provider (ISP). This number is identified and logged automatically in our server log files whenever you visit this Site, along with the time(s) of your visit(s) and the page(s) that you visited. We use IP addresses to understand how this Site is used by our users, to improve this Site and to enhance user experience of this Site. We may also use your IP address to help diagnose problems with our server and to administer our Site. We may also derive your approximate location from your IP address.

5. OUR ADVERTISING

We may use third-party advertising companies to serve advertisements regarding products and Services that may be of interest to you when you access and use this Site, our apps and other websites or online services, based on information relating to your access to and use of this Site and other websites or online services on any of your devices, as well as on information received from third parties. To do so, these companies may place or recognize a unique cookie on your browser (including through the use of pixel tags). They may also use these technologies, along with information they collect about your online use, to recognize you across the devices you use, such as a mobile phone and a laptop.

6. SECURITY

We may store your Personal Data. This information is retained and used in accordance with existing laws, rules, regulations, and other policies.

While there is no such thing as “perfect security” on the Internet, we will take reasonable steps to ensure the safety of your Personal Data. Personal Data is stored on database and is not publicly accessible. To prevent unauthorized access, maintain data accuracy, and ensure the correct use of information, we take reasonable precautions and have security measures in place to protect the loss, misuse and alteration of the information under our control. Although we attempt to ensure the integrity and security of our network and systems, we cannot guarantee that our security measures will prevent bad actors from illegally obtaining this information. We are not responsible for any breach of security protecting Personal Data or for the actions of any third parties that may obtain any Personal Data. You are prohibited from violating or attempting to violate security for or otherwise interfering with the operation of this Site. **We do not make, and expressly disclaim, any representation or warranty, express or implied, regarding the security or integrity of this Site and your Personal Data.**

If you have reason to believe that your interaction with us is no longer secure (for example, if you feel that the security of any account you might have with us has been compromised), please notify us of the problem immediately by contacting Customer Care in North America at 1-480-923-9630 or Europe at service@genesiscorp.com.au.

7. DATA INTEGRITY; RETENTION PERIOD

We depend on you to update or correct your Personal Data whenever necessary.

We will retain Personal Data about you for as long as needed or permitted in light of the purpose(s) for which it was obtained and consistent with applicable law. The criteria used to determine our retention periods include: (i) the length of time we have an ongoing relationship with you; (ii) whether there is a legal obligation to which we are subject; and (iii) whether retention is advisable in light of our legal position (such as in regard to applicable statutes of limitations, litigation or regulatory investigations).

You may also indicate your choices regarding marketing-related emails by contacting us via postal mail or telephone using our contact information below, or if you have a profile/account, by changing your preferences on the profile/account at any time.

There may also be residual information that will remain within our databases and other records, which will not be removed.
